Quality, Selection & Value – Guaranteed for Life

Precision cutting, long-lasting sharpness and exceptional comfort. That's what today's sewers, quilters and crafters demand – and that's what Mundial delivers. With an expanded line of scissors and shears, from the top-of-the-line Classic Forged to our new Eberlecrafts Titanium and CushionPro lines, Mundial offers the right product for every cutting task.

We prove our commitment to quality and customer satisfaction by backing every one of our products with a Lifetime Guarantee against defects in materials, construction and workmanship.*

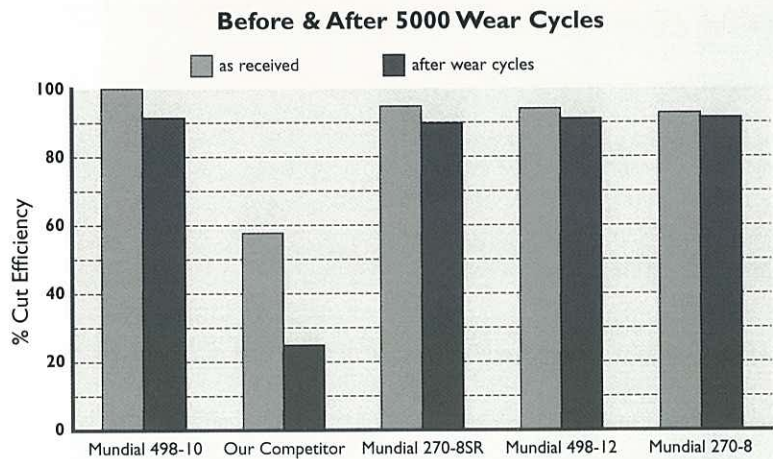

**Misuse and abuse are specifically excluded from guarantee coverage.*

Commitment to Service & Category Growth

Mundial's uncompromising commitment to quality extends beyond our products to our relationships with our trade partners and our efforts to grow the scissors and shears category through:

- Prompt, responsive customer service and unmatched product availability
- Broad product assortment spanning every price point
- Promotional packs, gift sets and improved packaging for value-added merchandising and display opportunities

Mundial Out-performs the Competition in Sustained Cutting Efficiency

LIFETIME GUARANTEE

Through a combination of old world craftsmanship and technological innovation, Mundial is setting a new standard of excellence in quality, selection and value.

Choosing the Right Scissors or Shears for the Job

MUNDIAL

Dressmaker Shears:

- wide range of cutting tasks
- able to cut through fabric of many weights
- designed with bent or offset handles so that whatever is being cut does not have to be lifted off the cutting surface
- ensures the shears do not harm the cutting surface

Sewing Scissors:

- light to medium cutting tasks such as trimming and clipping seams and loose threads

Embroidery Scissors:

- light work that entails close detail
- blades are slim and sharp with fine, precise points

Thread Clips:

- quick snipping and tight seam stitch cutting
- ring fits over the ring or middle finger and the clip rests in the hand
- thumb and index finger work the spring action blades

Pinking Shears:

- finishing seams with a resistant jagged edge
- prevents the threads in the fabric from coming undone and loose
- decorative appliqué cutting

Buttonhole Scissors:

- opening buttonholes without stretching or damaging the stitches
- features an adjustable screw so all buttonholes can be cut at an even length

Appliqué Scissors:

- trimming excess fabric or loose threads in layered applications
- trimming sheer and delicate fabric in lace insertion
- designed with one narrow and one wide blade; wider blade protects the fabric underneath while the narrow blade makes the cut

Quilting Scissors:

- cut easily through heavy quilting material
- features stainless steel blades with a special knife edge

Hobby/Craft Scissors:

- detailed cutting of items such as paper, yarn, cloth, thread and other crafting materials

Pocket/School Scissors:

- commonly used by children for crafts and general cutting
- blunt ends that prevent the point from tearing or ripping

Multi-Layer Shears:

- cutting through multiple layers of fabric as well as single layers of thicker craft material
- features heavy-duty, extra long, stainless steel blades with a double knife edge

All Purpose Shears/ Straight Trimmers:

- general purpose; cut anything around the house

Barber Shears:

- cutting hair
- serrations on one blade for cutting accuracy

Take-A-Part Shears:

- cutting meats and vegetables, cracking nuts and uncapping bottles
- great for plastic or canvas crafts
- notch can snip small pieces of wood and wire
- take-a-part blades for easy, thorough cleaning

Care and Use Tips for a Lifetime of Performance

Properly cared for, quality scissors and shears will last for many years. Here are a few tips on the care and use of Mundial scissors and shears.

- To clean blades, wipe them after each use with a clean, soft cloth; do not use water.
- Use the right scissors or shears for each job.
- Oil the pivot screw on scissors and shears every few months. Place a drop of oil on the screw, open and close a few times and wipe off excess oil.
- Never force a cut. If scissors cannot complete the cut, stop cutting. Cut heavy materials near the pivot, not near the tips of the blades.
- Cut carefully; hitting metal or plastic objects can cause nicks in the blades, damaging them and minimizing their cutting effectiveness.
- Handle carefully; dropping scissors can knock them out of alignment, reducing cutting accuracy.
- Store in a pouch or wrap in a clean cloth in a safe, dry place to prevent accidents and damage.
- Do not sharpen pinking shears by reworking the zigzag profile of the teeth; a simple edge grinding is sufficient.
- Blades should be sharpened if they do not cut evenly from pivot point to tip. Check Yellow Pages for professional sharpeners.

Forged Scissors & Shears

Mundial Classic Forged scissors are made of the finest, hot drop forged and fully plated carbon steel or nickel-plated construction. Mundial's special Knife Edge technology, available on Classic Forged Dressmaker Shears, features a precision cut blade that glides through multiple layers of fabric with ease, delivering optimum results.

Ergonomic Scissors & Shears

The original, patented cushion grip with enlarged finger bows and cushioned inserts are soft to the touch. Mundial's innovative, patented cushion grip not only is more comfortable, but also prevents slippage for maximum cutting control. CushionSoft scissors and shears are ergonomically designed for left or right hand use.

CushionSoft's stainless steel blades have a micro-serrated bottom blade for the most delicate, silky fabrics, or a double Knife Edge for heavier material.
